EDUCATION

University of Washington, Seattle **Expected** Mar 2027
Bachelor of Science in Informatics
Cumulative GPA: **3.84/4.00** | Annual Dean's List, 2024–2025 and 2025–2026

Relevant Coursework: *Data Programming & Mining, Computer Programming I, Machine Learning, Recommendation Systems & Search, Scientific Computing, GIS & Mapping*

PROJECTS

X Community Notes Latent-Factor Analysis | Research Studio Project **Seattle, WA**
Group Leader, University of Washington, INFO 494 (Saveski-Lab) Sep 2025 – Dec 2025

- Led the technical analysis of 30,000+ X Community Notes records, integrating note, user, and modeling-group datasets to examine latent-factor patterns across user populations.
- Built Python pipelines for statistical analysis and visualization, including factor distributions, multidimensional heatmaps, topic classification, quantile comparisons, and topic factor analysis.

Clock Stamp, *Independent iOS Application (apps.apple.com/app/id6800348277)* Mar 2026 – Present

- Built a SwiftUI world-clock app with multi-city search, MapKit, WeatherKit, Open-Meteo fallback, and local preferences.
- Conducted usability tests with ~15 users.

PROFESSIONAL EXPERIENCE

Information School, University of Washington **Seattle, WA**
Undergraduate Teaching Assistant, INFO 180: Introduction to Data Science Oct 2026 – Present

- Host office hours, helping students debug R code and work through data-analysis problems.
- Grade quizzes, labs, and data assignments and give feedback to 80 students.

Merit Interactive Co., Ltd **Hangzhou, China**
Agent Development Intern Jul 2026 – Aug 2026

- Implemented patent retrieval and comparison workflows to help users identify related prior patents and generate structured comparisons for disclosure drafting.
- Built an internal patent-disclosure tool with Python, FastAPI, React, and DeepSeek API; tested by 15 users and reduced manual drafting effort by ~70%.
- Built Tongren Coding's customer-support IM module with Python, SQLite, and JavaScript; deployed on Android and web.

HashKey Global **Shanghai, China**
Operations Intern (Summer) Jul 2024 – Sep 2024

- Analyzed daily trading volume and liquidity data in Excel to support sales analysis and dynamic fee-rate adjustments.
- Supported approximately 70 web users and 150 Telegram leads daily while developing an AI-assisted workflow for inquiry classification.

COMMUNITY ACTIVITY

North Helpline Food Bank (Lake City) **Seattle, WA**
Volunteer Oct 2023 – Apr 2024

- Volunteered 5 hours weekly in food distribution and sorting operations serving the local community.

SKILLS

Frameworks & Techs: React, Agno Agent, SQLite
Programming: Python, R, SQL, Swift (SwiftUI), JavaScript, HTML/CSS; basic Java
Languages: Mandarin Chinese (Native), English (Professional Working Proficiency)
Tools: GIS Mapping (QGIS & ArcGIS), Git, Xcode, Excel
